AMBITIONS & LONG-TERM VISION

Driven to advance as a Frontend Engineer by creating intuitive, high-performance web applications. Focused on continuous learning, adopting emerging technologies, and contributing to products that make a measurable impact.

EDUCATION

Thebes Academy

Bachelor's Degree, Computer Science

Cairo, Egypt

September. 2018 – July 2022

EXPERIENCE

Frontend Developer, Agillo

december 2020 – Present

- Developed modern, responsive web apps using React (Next.js), TypeScript, and Tailwind CSS, applying best practices for performance and accessibility.
- Helped build and maintain fast, SEO-friendly web applications focused on scalability, clean code, and teamwork within an Agile setup.
- Integrated REST and GraphQL APIs securely, implementing authentication flows, proper error handling, and data validation.
- Designed and developed reusable UI components in Storybook, ensuring consistency across projects and adding unit tests for reliability.
- Focused on component-driven development and followed clean code principles to keep the codebase scalable and maintainable.
- Coordinated with design, backend, and QA teams to implement smooth and interactive front-end features.
- Engaged in Agile processes, including sprint planning, stand-ups, and iterative development of features.
- Set up Playwright tests for critical user flows and linked them with CI/CD to automatically verify test success before releases.
- Hands-on experience with GitHub for version control, code reviews, and team collaboration.
- Handled complex state using Redux & Zustand, optimized server data fetching with TanStack Query, and managed routing with TanStack Router.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3

State Management: Redux, Zustand, TanStack Query, TanStack Router

Testing: Playwright, React Testing Library

Version Control: Git, GitHub

Tools& Workflow: Storybook, CI/CD, Agile, REST, GraphQL

LANGUAGES

Arabic (Native), English(Conversational).
